News release

For immediate release: 3 September 2014

### **InterMoor positioned for long-term growth with new UK facility**

InterMoor, an Acteon company, has opened a major new storage, maintenance and inspection facility in Aberdeen, UK. The new base – on a three-acre site with a warehouse, 20 permanent onsite staff and a multi-million pound mooring inventory – will support InterMoor’s global mooring operations with a focus on Europe, Africa and Asia.

The new facility will enable storage and maintenance of InterMoor and client equipment and is designed for onsite inspection and testing of wire and anchors. Situated on Miller Street within the Aberdeen harbour zone, the new base offers modern equipment storage close to all of Aberdeen’s vessel berths.

Frank Burns, general manager, InterMoor Ltd, said, “The new location will help us to increase productivity and efficiency by having all of our assets stored in a single location. For customers, the key benefits will be the option to conduct inspections onsite and store equipment at a harbour facility to help ensure speedy mobilisation.”
