In 2014 InterMoor finalized a Joint Venture in Nigeria with Century Energy Services Ltd. This will be a locally registered company and fully compliant with the Nigerian Oil and Gas Industry Content Development Bill, 2010. It will ensure an effective local engagement with the Nigerian oil and gas market. After the creation of an office facility, InterMoor is now developing a 1600m² yard facility in LADOL base, in order to ensure a local inventory of operational assets, thereby reducing cost and time of getting equipment to/from the region.
