

INTERMOOR

INTER-M[®] RELEASE

Game-changing
mooring connector
technology

an **ACTEON** company

The Inter-M[®] Release is a game-changing subsea mooring connector. Featuring acoustic disconnect technology and dual DNV and ABS type approval, it offers unrivalled performance in a compact and easy to deploy package.

MORE EFFICIENT DESIGN

Simply replace kenter links with light weight forged grade R5 Releases to convert your mooring system to quick disconnect.

- Faster, safer & cheaper to install
- Mobilise a system in a 10ft x 10ft container
- Releases at any load
- Reacts in under one second
- Mechanical override with ROV-safe tool

MODERN ACOUSTIC TECHNOLOGY

With industry leading Teledyne Marine modems and 5 year battery life, security and reliability are assured.

- Redundancy through acoustic network relay
- Synchronised multi-release
- Encoded against signal interference
- Touchscreen control software
- Weekly comms and monitoring

APPLICATIONS

Available in a range of load ratings, the Inter-M[®] Release is a versatile subsea connector for:

- Faster rig moves: save 24hrs per well location
- Hurricane and extreme weather avoidance
- Iceberg avoidance
- TAD & FSO release systems

InterMoor is the leading mooring, foundations and subsea services provider delivering innovative solutions for rig moves, mooring services and offshore installation projects.
